Fast implementation of projects with large savings potentials

WHY

Why every company benefits from our Process Excellence Platform

45 \$M
saving p.a.

20%
increase of the conversion rate

80%
less DSO
[Days Sales Outstanding]

2 weeks
to achieve results

Excellent Solution

MEHRWERK is named a Leader with mpmX by global analysts.

- ✓ 2024 Gartner® Magic Quadrant™ for Process Mining Platforms
- ✓ The Forrester Wave™: Process Intelligence Software, Q3 2023

THREE STEPS TO OPERATIONAL EXCELLENCE

Operational Excellence refers to the ability of a company to continuously improve its value chain in terms of efficiency and effectiveness. The goal is to enhance the quality of performance and minimize waste.

where insights become action

Our Process Excellence Platform combines process analytics and process automation. Insights and potentials gained from mpmX analytics can be directly transformed into actions through mpmX execution. All out of one platform.

STEP 1

Process analysis

- Make processes transparent and gain insights
- Detect deviations & anomalies in processes through conformance checking
- Identify root causes of inefficiencies such as bottlenecks

STEP 2

Process automation

- Integrate and digitalize manual process steps
- Automate processes using our workflow engine
- Proactive alerting in case of defined events

STEP 3

Process monitoring

- Management of relevant key figures & performance indicators
- mpmX supports decisions in day-to-day business
- Process predictions and potential recognition through AI

Business Apps

When you need quick process insights and immediate process improvements, simply choose the right mpmX Business App.

The apps are tailored to different departments, systems or initiatives. Pre-built dashboards and automation options enable immediate project implementation.

Selection of our Business Apps

- | | |
|---------------------|-----------------------------------|
| Purchase-to-Pay | Order-to-Cash |
| Logistics & SCM | Accounts Payable |
| Accounts Receivable | IT Service Management |
| Sustainability | Production & Value Stream Mapping |
